IMPORTANT NOTICE: Laboratory Report Format Change

Effective July 8, 2013, all printed reports from National Jewish Health Advanced Diagnostic Laboratories will have changes to two fields:

1. The age field will be replaced with the date of birth to ensure that every report has two unique patient identifiers.
2. The Hosp # field will be relabeled as MRUN# to clarify the information presented in this field, which is the medical record number as assigned by National Jewish Health.

Please call client services at 800.550.6227 if you have any questions.
