

Advanced Diagnostic
Laboratories

Dear Valued Client:

Due to a manufacturer backorder of critical supplies, the Mycobacteriology Laboratory will temporarily halt omadacycline drug sensitivity testing (test code: NTM5; billing code: MICSD) for rapidly growing mycobacteria.

Supplies are estimated to arrive the last week in May and a notification will be sent when testing can resume.

Please note that all pending orders will be cancelled and isolates retained in the lab. Isolates are kept for 1 year should you need testing once supplies are available.

We apologize for any inconvenience this may cause. Please contact our Client Service Team at 800.550.6227 or clinreflabs@njhealth.org, if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Groshong".
