Initial Submission Only	\$1000

This fee schedule will be applied to research submitted to the IRB on or after July 1, 2019. The IRB will honor the previous fee schedule (effective July 1, 2012) for studies submitted prior to July 1, 2019.

Study modifications can be submitted in batches. There is only one fee charged per submitted change/modification batch, regardless of the number or type of changes requested in that batch. The fee (\$250 or \$100) is based on the highest level of review required to process all changes. As a reminder, if a batch of billable amendments is submitted at the same time as a billable continuing review, the IRB will assess separate fees for reviewing the batch of amendments and continuing review.
