Benefiting
The Fund to Cure Asthma
Dear

Bob & Sandy,

Thank you once again for all you do to make this event so successful.

You both have been terrific supporters and friends to National Jewish Health and to us personally.

With much love and appreciation,

Marjorie and Stephen Raphael

THE FUND TO
Cure Asthma
fundtocureasthamagolf.org
The Fund to Cure Asthma (FTCA) was founded by Nancy and James Berry Hill and Marjorie and Stephen Raphael in 1994 to raise critically important funds for basic and clinical research related to understanding, treating and eventually conquering this widespread, debilitating and sometimes fatal disease.

Nancy and James live in New York City, and have two children, David and Charles. James is president and director of Berry-Hill Galleries, a position he has held since 1968. He and his son David represent the family’s third and fourth generations of art dealers. Berry-Hill Galleries specializes in 18th, 19th and early 20th century American paintings and sculpture.

Marjorie and Stephen live in Palm Beach, Florida, and have two children, Jacqueline and Eric. Stephen was senior managing director and served on the Board of Directors of Bear Stearns. Both Marjorie and Stephen are active in community organizations including the Jewish Federation of Palm Beach County.

Their plaque, located in the National Jewish Health Hall of Philanthropy on the hospital’s main campus in Denver, reads:

The Fund to Cure Asthma  
Established by  
Mr. and Mrs. Stephen Raphael  
Mr. and Mrs. James Berry Hill

We are proud to honor Nancy, James, Marjorie and Stephen for their extraordinary generosity for an extraordinary cause.
Dear Friends and Colleagues,

Thank you for joining us today for the 2017 Annual Golf Tournament to honor the Fund to Cure Asthma Founders, Nancy and James Berry Hill and Marjorie and Stephen Raphael. For 21 years, supporters of National Jewish Health have gathered at this event to raise funds for asthma research and care.

National Jewish Health, based in Denver, is the only facility in the world dedicated exclusively to the groundbreaking research and treatment of patients with respiratory, cardiac, immune and related diseases. Physicians and scientists at the institution have made cutting-edge discoveries that have improved the lives of patients around the world. In 2014, National Jewish Health and the Icahn School of Medicine established the Mount Sinai – National Jewish Health Respiratory Institute in New York City (therespiratoryinstitute.org).

All of us can take pride in the generosity of the many supporters here today. Congratulations to Nancy, James, Marjorie and Stephen from all of us. We encourage you to page through the program and see all of the supporters who have helped make today possible. To everyone here, thank you for coming today and thank you for helping to support the millions of people who suffer from asthma.

Have a wonderful day.

With gratitude,

Robert E. Helpern
Golf Tournament Co-Chair

Stephen B. Siegel
Golf Tournament Co-Chair

Samuel B. Lewis
Golf Tournament Chair Emeritus
At National Jewish Health, the nation’s leading respiratory hospital, we breathe hope. For the past 118 years, our personalized care and innovative treatments for cardiac, immune, and related disorders have transformed the lives of millions of patients and their families. We breathe hope, so you can breathe life.

To make an appointment, call 800.621.0505 or visit njhealth.org.
Dear Friends,

Thank you for being a part of the 21st Annual Golf Tournament Honoring Fund to Cure Asthma Founders Nancy and James Berry Hill and Marjorie and Stephen Raphael. Behind the scenes, our doctors, researchers, staff and leadership contribute to the success of the institution. Through your participation in this event, you share in this success, ensuring that important programs continue to transform lives, our scientists make groundbreaking discoveries to cure diseases and our physicians can care for all patients regardless of ability to pay.

At National Jewish Health, we are focused on innovation and the future. The work we do today will shape health care tomorrow. And the future of patient care lies with the kind of teamwork for which we are known. Pulmonologists consult with rheumatologists, cardiologists, gastroenterologists and allergists to make the right diagnoses and to develop a complete picture and plan for their patients. As a result, we diagnose diseases earlier and we also focus on prevention and precision medicine.

We would appreciate the opportunity to show you in person what makes National Jewish Health the leading respiratory hospital in the nation. Please let us know if you are interested in a Behind the Scenes visit.

On behalf of the dedicated faculty and staff at National Jewish Health, thank you for joining us at the 21st Annual Golf Tournament. Best regards.

Sincerely yours,

Michael Salem, M.D.

100% PIGEON-FREE WATER
No matter what’s up on the roof.

If you live in New York City, there’s a good chance your tap water comes from the iconic water tank on your building’s roof. And that might not be water you want to drink straight from the tap.

But your apartment’s drinking water can be cleaner, clearer and great tasting — if you have a Culligan® AquaCleer™ Advanced Drinking Water System.

By Using Culligan’s AquaCleer Water Filters you are helping to reduce the amount of plastic bottles that end up in landfills. Culligan’s AquaCleer Water Filters have been certified by NSF International which assures your Culligan Filter has been tested under the highest industry standards.

Installation is fast. You’ll be enjoying cleaner, clearer water in no time, and you’ll never have to buy and store bottled water in your apartment again.

So call us today, and start enjoying better water, pure and simple."
