Breath of Life GOLF CLASSIC

Golf tournaments benefiting National Jewish Health have been held in Los Angeles since 1989, raising more than \$4 million for the **leading respiratory hospital in the nation.**

This highly anticipated industry tournament brings L.A.'s leaders in real estate and financial services together to support the country's leading respiratory experts in giving the **Breath of Life** to children and adults in Los Angeles and around the country.

Each year this tournament gets more popular. Don't miss out on the spectacular course at El Caballero Country Club, the all-day hosted bar, contests and more!

Breath of Life GOLF CLASSIC

Support from this tournament helps National Jewish Health conduct groundbreaking research and provide compassionate care for children and adults with lung, heart, immune and related conditions. There is no other coordinated research and clinical care facility in the country with our expertise.

In 1899, National Jewish Health was founded as a charity hospital for indigent individuals with tuberculosis. Today, the hospital still provides care to all patients, regardless of their ability to pay. The demand for charity care has grown significantly since 2010. In 2017, National Jewish Health provided \$44.6 million in charity and subsidized care.

Patients travel to National Jewish Health from all 50 states and many foreign countries to find answers, treatments and cures. In FY 2018, we logged more than 132,000 patient visits.

Our world-class faculty and staff set national treatment guidelines. In 2018, 54 National Jewish Health physicians were named the best in their specialty by three separate organizations, including Best Doctors and Castle Connolly.

Breath of Life GOLF CLASSIC

National Jewish Health is in the top 7 percent of institutions in the country funded by the National Institutes of Health, in terms of absolute dollars. For a specialty hospital/research center, this is a tremendous achievement. We are responsible for many important scientific advances including the discoveries of cell parts that influence allergic and immune responses, as well as proteins that slow the growth of cancer.

National Jewish Health is home to Morgridge Academy, a tuition-free K-8 school for chronically ill children and the only school of its kind in the country on a medical campus. The school's mission is to provide a safe, friendly and healthy school environment committed to whole-child development. Students learn to manage their diseases while succeeding academically.
