INSURANCE

National Jewish Health accepts most health plans and is “in-network” for millions of people. However, depending on your patient’s specific health plan and/or if they live outside of Colorado, their provider may determine services at National Jewish Health are “out-of-network.”

Patients will most likely be required to pay a specialty physician copay to be seen by our specialists. Please note that other copayments may apply: hospital copayments, deductibles or co-insurance.

Please direct insurance questions to our Business Office at **303.398.1565**.
