About the Division of Pediatric Pulmonology

At the National Jewish Health *for Kids* our Division of Pediatric Pulmonary Medicine is part of our larger Pediatric Department. Our goal is to establish a diagnosis of the pulmonary problem, and develop a plan of care that will allow the child to be as symptom-free as possible. At National Jewish Health *for Kids*, we:

- Are the leader in the diagnosis and treatment of patients with pulmonary conditions, from routine to complex
- Offer advanced testing and individualized care
- Implement a focused and integrated multi-disciplinary approach
- Provide quick access to the program
- Perform consultations and/or ongoing care depending on the needs of patients and physicians.
- Have an extensive clinical research program

Among Conditions Treated

- Aerodigestive disease/syndrome
- Aspiration/dysphagia
- Asthma
- Bronchopulmonary dysplasia
- Chronic cough
- Cystic fibrosis transition of care
- Exercise tolerance
- Interstitial lung disease
- Invasive/non-invasive ventilation
- NICU/PICU follow-up
- Obstructive/central sleep apnea
- Pediatric sleep disorders
- Recurrent Pneumonias
- Vocal cord dysfunction

Our Commitment

- Comprehensive reporting, including recommendations
- Direct physician-to-physician consultation
- In-office education sessions
- Thorough treatment and management plan for patients and families

Other Program Services

- Allergy therapy
- Exercise Laryngoscopy
- Extended stay options for second opinion
- Fiberoptic bronchoscopy
- Inpatient services
- Latest biologics treatments
- Pediatric sleep studies
- 24/7 after hours triage
- 48-hour subspecialist availability for acute cases
