Schedule H, Part V, Section B, Line 5-National Jewish Health - In each of the past several years, community benefit discussions were held using a virtual format that had been introduced during the pandemic and proved of value to continue. The 2024 and 2025 meetings were held in late May of those years. Specifically, the 2025 meeting was held on May 7, 2025. The meetings included an overview of National Jewish Health community health efforts and created an opportunity for community members - organizations and individuals - to ask questions and share their input about priorities, needs and desires for improved community health. Questions were solicited in advance to help guide the content provided. National Jewish Health senior leadership along with leaders from community outreach and quality led an overview of the programs that provide community benefit. Following the 2025 meeting, which was virtually attended by individual citizens and representatives of several community organizations and government entities, National Jewish Health also surveyed several nonprofit, community entities to gather additional information, including the Colorado Coalition for the Homeless, Every Child Pediatrics, Denver Health Community Health Clinics-Family Medicine and Pediatrics, Clinica Colorado, Clinica Tepeyac, Inner City Health, STRIDE Community Health Center, and Salud Family Health Centers.

Schedule H, Part V, Section B, Line 11-National Jewish Health - National Jewish Health leadership has chosen to direct its time, resources, and extraordinary expertise to address several specific areas, including Pediatric Respiratory Health, Severe Lung-Related Illnesses, Education, and Access to Specialty Care. National Jewish Health is addressing Pediatric Respiratory Health through improving access through telehealth, investing in and expanding its staff of pediatric allergists and pulmonologists and extending the Pediatric Asthma Tune Up Program. This last program was developed by National Jewish Health to reach more remote parts of our state as well as urban areas with need. National Jewish Health continues to focus on patients suffering from severe lung-related illnesses such as long COVID, COPD, black lung and other hard to treat illnesses, particularly those that affect the lungs. By providing comprehensive care for those with these difficult to treat illnesses, we can reach many people and raise the health level. We provide such programs as a series of Miner's Clinics that include the Black Lung Clinic across our state and neighboring states that screen for early-stage lung issues and provide education and care. We also continue to provide a long-COVID clinic that helps treat and support those who have this ongoing illness, and continues to research the illness and improve treatments. National Jewish Health provides education to patients and their families on how to manage asthma and other respiratory diseases through providing active training programs for health care professionals, expanding access to patient education classes and support groups, and growing its robust library of health content, authored exclusively by experts at National Jewish Health. In addition, National Jewish Health operates a free K-8 school for up to 90 chronically ill children on the organization's main campus. The school teaches predominantly low-income and minority students and their families about how to manage their diseases, provides onsite highly skilled health care professionals to provide a safe learning environment, while the students fully participate in a full schedule of academic studies. The program helps the students catch up on lost ground caused by absences as a result of their asthma and other chronic diseases, as well as learning how to manage their illness throughout their lives. National Jewish Health is addressing Access to Specialty Care was further enhanced through the opening of the Immediate Care Center to triage acutely sick patients and members of the community, treat them or transport them to inpatient or emergency services. The National Jewish Health Chronic Care Management program provides ongoing monitoring and care between office visits, using a smartphone application and remote monitoring devices such as weight, blood pressure, blood oxygen saturation and heart rate. This program dramatically improves access for adult patients who have more than one serious chronic condition. Additionally, National Jewish Health is focused on recruiting and hiring faculty and staff and delivering patient care expertise at more locations. National Jewish Health will continue to expand new programs for pulmonary, gastroenterology, neurology, oncology, rheumatology and pediatric pulmonary care. National Jewish Health has expanded the radiology capabilities using state-of-the-art MRI and CT equipment that address needs for a wide variety of illnesses and keeps those services local to the community.

Schedule H, Part V, Section B, Line 14-National Jewish Health - National Jewish Health's full and plain language FAP includes the items used for eligibility criteria; Federal Poverty Guidelines (FPG) and liquid assets. The result of the formula "Liquid Assets (less a \$2,500 allowance per family member) at a minimum of -0- + annualized income - annualized medical expenses (including health insurance premiums)" is compared to the FPG levels to determine the discount percent allowed. The chart is included with the FAP plan summary on the National Jewish Health website (njhealth.org). This discount percent is applied to the self-pay portion of the charges and that amount is deducted from the patient balance.

Schedule H, Part V, Section B, Line 16g-National Jewish Health - National Jewish Health - When patients inquire about financial assistance at various admission locations, the personnel refer them to the Financial Counselor's Office in the main admissions area. The counselors discuss the various assistance programs (including Medicaid, CICP, Hospital Discounted Care (HDC), and the National Jewish Financial Assistance Program), pre-screen patients, and help them prepare applications. National Jewish Health FAP plain language paper copies are located in the Financial Counselor's office. Phone numbers and the url to the website are on the patient private pay bills and signs are displayed in the admission area.

Part V- Section C - Supplemental Information For Part V Section B (Continued)

Schedule H, Part V, Section B, Line 16j-National Jewish Health - National Jewish Health has an outreach team focused on community outreach as well as physician outreach. This team meets with safety net clinics and members of the community at large to raise awareness of our clinical services, including the financial assistance that we provide. To ensure that we are meeting the needs of our community and to raise awareness of available financial assistance, we meet with civic groups, safety net clinics and community leaders. National Jewish Health physicians also provide care at safety net clinics and at hospitals throughout the area helping raise awareness of the specialty-focused clinical programs and financial assistance available through National Jewish Health.

Schedule H, Part I, Line 3c - National Jewish Health is a voluntary participant in the Colorado Indigent Care Program (CICP) and has modeled their Financial Assistance Policy after the program. Pursuant to CICP guidelines, patients pay a minimal co-pay for care. National Jewish Health believes charging a minimal co-pay causes patients to be a full participant in their healthcare plan. For the National Jewish Health Financial Assistance program (FAP) National Jewish Health reviews income and liquid asset levels to determine patient financial need and discounts. Liquid assets (less an allowance based on family size) are added to annualized income (less annual medical expenses) to compare to the FPG. Through this formula National Jewish Health take into account medical indigence.

Schedule H, Part I, Line 7 - National Jewish Health conducts an annual study to determine the costs of all major programs. Through this study, which allocated specific costs across major programs, we determine the cost of clinical care. This ratio is multiplied by the total bad debt charges to determine cost. It is the same methodology used to determine cost of free and reduced care. National Jewish Health classifies accounts as bad debt at the end of the collection cycle once contractual adjustments, financial assistance, and payments have been applied. An account is considered bad debt after all reasonable collection efforts have been made.

Schedule H, Part III, Section A, Line 2 - The bad debt on line 2 is calculated at a cost to charge ratio, so the amount is listed at an estimated cost lost. All accounts written off for private pay or underinsured patients who are determined to be uncollectible are considered implicit price concessions since we accept patients regardless of their ability to pay. The amount listed in line 2 is actually a reduction to gross revenue on our audited financial statements- as a price concession to reach net revenue. The note discussing Patient Revenue includes all related information and in footnote 3 of the audited financial statements.

Schedule H, Part III, Section A, Line 4 - Consistent with FASB 605 and 606, revenue is recorded net of price concession, including bad debt. Bad debt is not reported on the financial statements, except when financial positions change for patients after their date of service. Financial Bad Debt was -0- for FY25 so as such there was no footnote.

Schedule H, Part III, Section B, Line 8 - National Jewish Health is committed to providing specialty care to seniors. Patients benefit from extensive time with their healthcare providers, multi-specialty care focused on the whole patient, comprehensive patient education, rehabilitation and thorough diagnostic work-ups and treatments. This care is expensive and many aspects of it are not reimbursed adequately from Medicare. Many patients come to us as a last resort. The ability to access our care without regard to the limitations of insurance is an important benefit to these patients and to their community.

Schedule H, Part III, Section C, Line 9b - National Jewish Health screens for financial assistance policy (FAP) eligibility for 240 days after the first self-pay balance statement. During the first 120 days National Jewish Health collects on all accounts (excluding extraordinary collection practices) - until a patient applies for financial assistance. If they are found eligible, the discount is calculated and applied, the balance due is determined and normal collection practices resume for the remaining balance. During the last 120 days, if a patient applies for National Jewish Health financial assistance, all collection efforts (including any extraordinary collection practices) are suspended. If the patient is determined to be FAP eligible, any extraordinary collection efforts are reversed, the discount is calculated and applied, the balance due calculated, and normal collection efforts are resumed for this balance.

Schedule H, Part VI, Line 2 - National Jewish Health scrutinized published health data, held community input sessions, surveyed community health providers and consulted with our own faculty, who have extensive contacts and experience within the community, to understand the outstanding health needs of residents in our community. National Jewish Health also interacts with and collaborates with other hospitals in

Part VI- Supplemental Information (Continued)

the area as projects or needs are identified.

Schedule H, Part VI, Line 3 - National Jewish Health maintains a financial counseling department designed to help patients obtain needed assistance. The counselors inquire about financial need and educate patients on the various assistance programs available to them, including National Jewish's own financial assistance program, Colorado Indigent Care Program, and Hospital Discounted Care Program (HDC). The counselors are available to assist patients in applying for need based on programs and in establishing payment plans and options.

Schedule H, Part VI, Line 4 - As a specialty hospital focused on respiratory, cardiac, immune, and related diseases, National Jewish Health serves a very diverse community. The main National Jewish Health campus is located in central Denver neighborhood at 1400 Jackson Street. Adult and pediatric patients come to National Jewish Health from the local community as well as from throughout the State of Colorado and nationally. Since tobacco addiction is a significant contributor to the disease burden of our patients, National Jewish Health operates tobacco cessation programs for the Denver community and in 23 other states.

Schedule H, Part VI, Line 5 - National Jewish Health invests significant resources in meeting the healthcare needs of our community. Since our founding over 125 years ago, when National Jewish Health was a free hospital for the care of indigent TB patients, National Jewish Health has been committed to meeting the medial needs of the under served in the community. National Jewish Health is only one of a handful of multi-specialty outpatient clinics in the area that schedules patients for services on a first come, first served basis regardless of ability to pay. All patients are provided a full scope of diagnostic and therapeutic services without regard to the patient's financial need. Our clinicians serve at multiple locations throughout the state in order to ease access to our services. As a teaching institution, our faculty educates and trains tomorrow's doctors, nurses, and other healthcare staff. Every year, National Jewish Health spends millions of dollars to conduct the full continuum of research from basic science to clinical application. National Jewish Health operates a tuition-free K-8 school on our campus exclusively for chronically ill children with special medical needs. To our knowledge, it is the only school of its kind on a healthcare campus in the country. Overwhelmingly the students at the school live in poverty and qualify for free or reduced lunches. National Jewish Health offers free lung testing around the country. We subsidize programs throughout the community including an inner city asthma program in the Denver Public Schools, an Asthma Took Kit program for the western slope and a free asthma care and teaching program in the lower income communities of Colorado. The National Jewish Health Chronic Care Management™ program was launched with the goal of improving patients' management of complex conditions and achieving better outcomes. The program uses real-time data to connect, monitor and respond to patient-provided insights into their well-being between clinic visits. As a not-for-profit institution our Board of Directors, all of whom are community leaders, are heavily involved in the direction and strategies of furthering our mission "to heal, to discover, and to educate". The Colorado House and Senate unanimously recognized National Jewish Health for our vital role in serving the health needs of Colorado citizens.
