MOOR Educational Guest Speaker

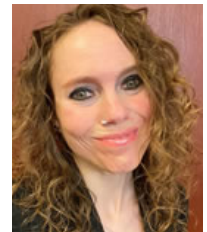

**Xan Nowakowski, PhD,
MPH**

Asst Professor, Vice Chair,
Council on Diversity & Inclusion
Florida State University
College of Medicine

*Beyond Inclusion Criteria:
Engaging LGBTQIA+
People with Cystic Fibrosis
in Clinical Trials*

**Wednesday
Jan 12**

12pm – 1pm
Zoom

2022 Research Retreat – Brian Day, PhD

Get those abstracts in! **Deadline: January 14.** The application form is short and simple; contact Rachel Simpson. Our 2022 Research Retreat will take place, **Friday, February 18 (save that date)!** Like last year, we will include research from all departments at NJH, and, our event will be remote (via Zoom)! Abstract competitions (with prizes) will take place as usual, and we'll enjoy take-away goodie bags. Over the past several years, this event has proven to be one of the most productive ways to facilitate interactions among our Basic, Clinical, and Translational scientists, to showcase research and develop or enhance collaborations, and to provide training and mentoring experience for our researchers.

Boettcher Awards

The Boettcher Awards are, once again, open for nominations. This award is for a single, 3-year, \$235,000 grant. MOOR will be coordinating the nomination process on behalf of the Dept of Medicine. Our department will forward up to 2 applications to Academic Affairs. DOM deadlines:

- January 21 – deadline to secure your Division Chief's support and notify Brian Day
- February 21 – full application packages due to the MOOR (Rachel Simpson)
Applicant must be "early career" = within 4 years of first academic appointment (so, mostly assistant profs).

Interested faculty should contact Rachel Simpson for forms, and to be included in the DOM applicant pool.

Clinical Trial of the Month – D Sundström, Alicia Drew, Allen Stevens

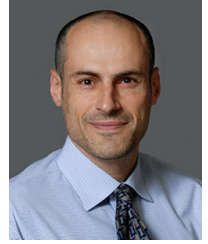

Precision Interventions for Severe/Exacerbating Asthma: PreCISE – NIH
Do you have a patient age 12 or older who has severe or uncontrolled asthma? Our researchers are looking to identify different types of severe asthma and understand the best way to treat it based on precision medicine.
Patients with uncontrolled, worsening or severe asthma are welcome to participate. This study consists of multiple study visits over the course of 6 months and up to 2 years

Principal Investigators: Michael Wechsler, MD and Ronina Covar, MD
Clinicians: contact Allen Stevens, at 303-398-1443 or email asthma@njhealth.org

NEW NIH Funding Opportunities - Anthony Gerber, MD, PhD

Apply for these opportunities with the support of our [Grant Writing Workshops program](#). **Please plan ahead for the February 5th and June 5th grant deadlines.** In 2020-21, several funded R01s were reviewed through the workshop, which only requires circulating an Aims page to a few of your colleagues. Please contact Erin Brown (BROWNEE@NJHEALTH.ORG) to get on the schedule!

Following is a selection of new NIH funding opportunities, announced within the last month. The NIH Guide for Grants and Contracts is NIH's official publication of notices of grant policies, guidelines and funding opportunity announcements (FOAs). visit: https://grants.nih.gov/searchGuide/search_guide.cfm

National Institute of Allergy and Infectious Diseases - 7 new entries for NIAID	National Heart, Lung, and Blood Institute 17 new entries for NHLBI
National Institute of Environmental Health Sciences - 3 new entries for NIEHS	National Institute of Nursing Research 8 new entries for NINR
National Center for Advancing Translational Sciences - 6 new entries for NCATS	National Center for Complementary and Integrative Health – 9 new entries for NCCIH
National Institute on Aging 14 new entries for the NIA	National Institute of Diabetes and Digestive and Kidney Diseases – 6 new entries for NIDDK
National Cancer Institute 20 new entries for NCI	Trans-NIH Health Equity Fund 7 entries for the trans-NIH

***New* YouTube Channel**

Have you missed a talk by a MOOR Educational Guest Speaker? We're excited to announce our MOOR YouTube channel for all of our 2021/2022 recordings.
