

Are you a current or former smoker?

We are conducting a lung cancer screening study involving a CT scan and blood test.

Qualifications include:

Adults, 50 to 75 years of age
Current or former smoker for at least 20 years

Study participation involves:

- Typically involves 1 visit to our research unit
- Early Cancer Detection test (CDT) - lung blood test at no charge
- CT lung scan at no charge

For more information and to enroll in this study, please contact:
