Since 1977, I have experienced a variety of Rehab settings: post/op, outpatient, orthopedic and dance, nursing home geriatric and hospital, with many types of clients. I was involved in developing an innovative exercise program for oncology patients.

A Rehab team member and National Jewish Health since 1989, I enjoy working with different age groups and innovative Physical, Occupational, Recreational Therapists and Speech Pathologists.

My goal is to acquire up to date science and techniques of Physical Therapy through continuing Education, then transfer knowledge and enthusiasm to patients for a better quality of life.
