

Conditions Treated:

Research Areas:

- *Basic Immunology*
- *Inflammation*
- *Innate Immunity*
- *Molecular Genetics*

Programs & Services:

- *Department of Biomedical Research*

Diseases of the immune system such as sepsis, asthma, and atherosclerosis affect millions of people worldwide, and the incidence of many of these diseases is rising. My lab is focused on understanding the regulation of the innate immune response, particularly as it relates to the basis for such immunological diseases.

Education

1996 Harvard University, PhD

Affiliations with the University of Colorado Denver

Assistant Professor in the Department of Immunology and Microbiology, University of Colorado Denver
