IMPORTANT NOTICE: List Price Increase Effective July 1, 2014

Dear Valued Client,

We greatly appreciate your continued interest in utilizing the services provided by National Jewish Health® Advanced Diagnostic Laboratories. It is our purpose to provide leading-edge testing that supports your needs, is proactive and personalized.

Like most of you, we have experienced inflationary effects in our business, as well as price increases from our suppliers. We have worked to avoid adjusting our own prices, but can no longer continue to absorb these additional costs. We are reviewing our pricing and fee schedule now.

Current contract prices will be honored through the remainder of the contract; however, "list" pricing may change at the end of our fiscal year, June 30, 2014, with price updates potentially going into effect on July 1, 2014.

We truly value your business and look forward to furthering our relationship with you. If you have any questions or concerns, please feel free to contact me.
