- Dinner for four at Shanahan’s
- Company logo on event website
- Recognition in National Jewish Health annual report
Support from this tournament helps National Jewish Health conduct groundbreaking research and provide compassionate care for children and adults with lung, heart and immune-related conditions, including COVID-19. There is no other coordinated research and clinical care facility in the country with our expertise.

We have held the #1 or #2 ranking in Pulmonology on the U.S. News & World Report Best Hospitals list for 24 consecutive years.

Our world-class faculty and staff set national treatment guidelines, consistently being named on various “best of” lists such as “America’s Top Doctors” by Castle Connolly.

Every year patients come to National Jewish Health from all 50 states and several foreign countries, seeking care they could not receive anywhere else.

In Press Ganey surveys, 96.3 percent of all patients would recommend National Jewish Health to a friend or family member. We received especially high ratings in friendliness/courtesy, clear language and patients’ confidence in care providers.
We operate Acute Respiratory Clinics for suspected COVID-19 patients, as well as the Center for Post-COVID Care and Recovery for patients across the nation whose infections have passed but need ongoing help with their recovery.

We perform mass COVID-19 testing for our patients, multiple state health departments, other health systems, schools, universities, businesses and others.

We are responsible for many important scientific advances including the discoveries of cell parts that influence allergic and immune responses. We are using that expertise and leading in substantial and innovative research and clinical trials to understand COVID-19.

Since opening in 1899, we have provided care to all patients, regardless of their ability to pay. The demand for charity care has grown significantly with a yearly average of $45 million provided in free and subsidized care.

National Jewish Health is home to Morgridge Academy, a tuition-free K-8 school for chronically ill children and the only school of its kind in the country on a medical campus. Students learn to manage their diseases while succeeding academically, physically and socially.
