Important Notice: List Price Update Effective May 2, 2026

Dear Valued Client,

At National Jewish Health Advanced Diagnostic Laboratories, we value our partnership with you and remain committed to delivering high-quality, clinically meaningful testing across our infectious disease, allergy, immunology and complement laboratory services. Our mission is to provide innovative testing solutions, reliable results, and exceptional service that support the needs of your patients and your organization.

As part of our commitment to transparent communication, we are providing this 60-day advance notice of an upcoming adjustment to our list (fee schedule) pricing. After a comprehensive review of our operational cost and testing platforms, we will be updating prices effective May 2, 2026. While some tests will see modest increases, there are also several cases in which we have been able to lower prices due to efficiencies and cost savings, and we are pleased to pass those reductions on to you.

The new fee schedule is available upon request.

We sincerely appreciate your continued trust and collaboration. It is our privilege to support your testing needs and to be part of the care you provide for your patients. If you have any questions or would like to discuss these changes, please don't hesitate to contact us—we are here to help.

Warm regards,

A handwritten signature in black ink that reads "Lara Yourkin".
