

Dear Clinical Staff,

We are proud to announce that the NT-proBNP test, previously performed on referred patient samples, has been moved in-house. Moving forward, this test will be performed on our new Atellica CI1900 Chemistry Analyzer, yielding more accurate and timely results for National Jewish Health providers and patients.

If you have any questions, please contact our Client Services team at extension 4120 or via email at [ClinRefLabs@NJHealth.org](mailto:ClinRefLabs@NJHealth.org)

Sincerely,

Steve Groshong, MD, PhD  
Medical Director, Advanced Diagnostic Laboratories  
National Jewish Health
