

Antoine du Chez Designates Percentage of Gift Card Sales to Help Chronically Ill Children

Give the Gift of Spa this Holiday Season and Support the Morgridge Academy

DECEMBER 07, 2016

DENVER, CO — This holiday season, you can give the gift of spa to someone special and support a great cause at the same time. Antoine du Chez, Denver's top salon and spa for over 40 years has announced that beginning in December, 5 percent of all salon gift card sales will be donated to Morgridge Academy – a school for chronically ill children located on the campus of National Jewish Health.

[Morgridge Academy](#) is a unique, tuition-free school that serves children in kindergarten through eighth grade who have been diagnosed with a chronic illness. Students who attend have a range of illnesses, including severe asthma and allergies, immune deficiencies, cystic fibrosis, diabetes and others. Many of these students have fallen behind in school because of their illnesses. Morgridge Academy gives them access to world-class medical care and a personalized education that enables children to succeed in all areas of life.

"Kids come to us struggling medically, physically, academically, socially and emotionally," says Jennifer McCullough, director of education. "Once kids get here, we see them thrive and bloom into these amazing people. This school would not be possible without generous support from our community."

Antoine du Chez gift cards are available in all dollar amounts and can be purchased at antoineduchez.com and applied toward products or services at either salon location in Cherry Creek or Park Meadows.

National Jewish Health is the leading respiratory hospital in the nation. Founded 123 years ago as a nonprofit hospital, National Jewish Health today is the only facility in the world dedicated exclusively to groundbreaking medical research and treatment of patients with respiratory, cardiac, immune and related disorders. Patients and families come to National Jewish Health from around the world to receive cutting-edge, comprehensive, coordinated care. To learn more, visit the [media resources page](#).
