

Dr. Ellen Volker Joins National Jewish Health to Lead Interventional Pulmonology

JANUARY 03, 2019

DENVER — Ellen Volker, MD, MSPH, has joined the renowned pulmonary faculty at National Jewish Health in the Division of Pulmonary, Critical Care and Sleep Medicine. She comes to National Jewish Health from St. Mary's Hospital and Regional Medical Center in Grand Junction, Colorado. Dr. Volker serves as the Director of Interventional Pulmonology at National Jewish Health. She specializes in minimally invasive procedures to diagnose and treat diseases in and around the lungs. These diseases include lung cancer, lung nodules, cancers that have spread to the lungs, enlarged lymph nodes in the chest, central airway obstructions, pleural effusions, and emphysema. Dr. Volker has participated as a co-investigator in a number of research projects and has authored several publications. She sees patients on the National Jewish Health main campus.

Dr. Volker received her medical degree at the University of Colorado. She completed clinical fellowships in Interventional Pulmonology and Pulmonary and Critical Care Medicine at Duke University. Additionally, Dr. Volker earned a Master of Science in Public Health University of Colorado. In her position at St. Mary's Hospital, she served as the director of Advanced Pulmonary Diagnosis and of Lung Cancer Screening.

National Jewish Health is the leading respiratory hospital in the nation. Founded 123 years ago as a nonprofit hospital, National Jewish Health today is the only facility in the world dedicated exclusively to groundbreaking medical research and treatment of patients with respiratory, cardiac, immune and related disorders. Patients and families come to National Jewish Health from around the world to receive cutting-edge, comprehensive, coordinated care. To learn more, visit the [media resources page](#).
