

Dr. Kristen Glisinski Joins National Jewish Health Interventional Pulmonology Team

DECEMBER 02, 2020

DENVER — Kristen Glisinski, MD, has joined the pulmonary faculty at National Jewish Health in the Division of Pulmonary, Critical Care and Sleep Medicine. She joins the renowned Interventional Pulmonary Program at National Jewish Health. Dr. Glisinski comes to National Jewish Health from Duke University Medical School where she completed her fellowship in interventional pulmonology. Dr. Glisinski specializes in central airway obstructions, lung nodules, pleural effusion and mediastinal lymphadenopathy. She will see patients at the National Jewish Health main campus and perform procedures at National Jewish Health, Saint Joseph Hospital and Swedish Medical Center.

Dr. Glisinski received her medical degree at the University of Colorado School of Medicine, and completed a residency program in internal medicine at Duke University Medical Center. Additionally, she has authored numerous peer reviewed journal articles.

National Jewish Health is the leading respiratory hospital in the nation. Founded 121 years ago as a nonprofit hospital, National Jewish Health today is the only facility in the world dedicated exclusively to groundbreaking medical research and treatment of patients with respiratory, cardiac, immune and related disorders. Patients and families come to National Jewish Health from around the world to receive cutting-edge, comprehensive, coordinated care. To learn more, visit the media resources page.
