

Heart Failure Specialist Dr. Ankie Amos Joins National Jewish Health

OCTOBER 26, 2020

DENVER — Ankie Amos, MD, has joined the cardiology faculty at National Jewish Health in the Department of Medicine. She recently came to National Jewish Health from the Alaska Heart & Vascular Institute where she served as Heart Failure Program Director. Dr. Amos has clinical interests in advanced heart failure and transplant, echocardiography and nuclear medicine. She sees patients at both National Jewish Health and Saint Joseph Hospital.

Dr. Amos received her doctoral degree at Duke University School of Medicine. She also completed fellowships in heart failure/heart transplant and cardiovascular disease at Duke University Medical Center. Additionally, Dr. Amos has authored a number of peer reviewed journal articles and abstracts. During her educational training, she served two terms of physician mission work in Kenya and Zimbabwe.

National Jewish Health is the leading respiratory hospital in the nation. Founded 121 years ago as a nonprofit hospital, National Jewish Health today is the only facility in the world dedicated exclusively to groundbreaking medical research and treatment of patients with respiratory, cardiac, immune and related disorders. Patients and families come to National Jewish Health from around the world to receive cutting-edge, comprehensive, coordinated care. To learn more, visit the media resources page.
